

COMPANY PROFILE

Overview

Founded in 1955, Al-Judaimi Group of Companies (JGC) has steadily grown into a prominent and solid business of five companies. Through its various member companies, JGC is in diverse sectors including retail of construction, industrial, agriculture, and power equipment, automotive part and lubricants, heavy-duty yellow equipment and real estate development. JGC operates in Kuwait and KSA. In a bid to expand and introduce new product lines to meet the growing demand, **Al-Judaimi Equipment Company (JEC)** was founded in 2018.

Following the establishment of JEC, we set out to achieve significant milestones through our solution-driven mission and vision. We specifically chose to offer our expertise in the area of supply and service of innovative construction machinery, industrial and agricultural machinery, as well as other related products. As part of our commitment to achieve our founding objectives, we have collaborated with global industry leaders across all the sectors in which we deal. This move has continuously delivered reliable, innovative and value-adding products and services customers with complete customer's satisfaction.

Mission

JEC's mission is aligned with the Group's mission is to be a leader in the retail, investment and other related businesses in the Gulf region. This mission will be achieved through:

- Working with its clients, business partners and staff with mutual trust and respect.
- Focusing on value-add activities and contributing to the social and economic development.
- Being a secured, exciting, and rewarding place to work where committed and talented people can realise their professional ambitions.

Values

We strive to be known for:

Reliable and Innovative Products

Teamwork

Customer Satisfaction

Our brands

Over the years, our partnerships with significant equipment manufacturers with a proven record of accomplishment in their field has yielded great achievements and positive results. Below are the **products** we provide **together with our reliable partners** across the globe:

Power Equipment

Whenever you require any electrical power equipment, engines, or generators, we are always open to suggest a suitable solution that seamlessly fits your needs and meets your requirements. Our broad array of products ranges from portable to heavy-duty diesel generating sets. These generators are powered by either gasoline, diesel, or natural gas. Just name your preference, and we deliver to your doorstep.

Briggs & Stratton has maintained its spot at the top as the world's largest gasoline and diesel engines producer for outdoor power equipment. From its headquarters in Wisconsin, USA, Briggs, and Stratton have dominated the market in about **100 countries across six continents.**

Product line includes single and twin-cylinder engine, vertical and horizontal shaft, diesel engines, and lithium-battery engines.
